Teaching by Example (by June Crowl)

This book is designed to help Sunday school teachers and evangelists train their students and listeners more effectively in the things of God. Each African story has a small picture which serves as a visual prompt to help people recall the essential details of the story. Each lesson is followed by "Action" steps which include the two main ideas related to each lesson. Then a section of application to one's personal life is given. There are also "Thought Questions" for each of the 37 stories included in this book.
